

## Heavy Duty Commercial Concrete Pressure Pump Business For Sale

Our Product Introduction

for more products please visit us on [sunnyconcretebatchingplant.com](http://sunnyconcretebatchingplant.com)

### Basic Information

- Place of Origin: Hunan
- Brand Name: Sunny
- Model Number: HBT30
- Minimum Order Quantity: 1 set
- Price: USD5000-7000 PER SET
- Packaging Details: FULL CONTAINER
- Delivery Time: 20-35DAYS
- Payment Terms: L/C, D/P, T/T, Western Union
- Supply Ability: 500 SET PER MONTH

### Product Specification

- Application: Concrete Pump, Trailer Pump
- Warranty: 3 Years
- Model: HBT30
- Highlight: concrete pressure pump, concrete pump business for sale, concrete pump business

## Product Description

High Performance Heavy Duty Commercial Hbt 30 Concrete Pump Singapore

### Product Description

The HBT30 concrete pump is a specific model within the HBT series of concrete pumps. It is a trailer-mounted concrete pump that is widely used in construction projects for the efficient transportation and placement of concrete. The HBT30 is known for its compact size, versatility, and reliable performance, making it a popular choice for small to medium-sized construction projects.

Key features and specifications of the HBT30 concrete pump include:

**Trailer-Mounted Design:** The HBT30 concrete pump is mounted on a trailer, providing excellent mobility and easy transportation between different job sites. Its compact size allows for maneuverability in tight spaces and facilitates quick setup and movement within the construction site.

**Pumping System:** The HBT30 is equipped with a hydraulic piston pumping system that delivers the necessary pressure to transport the concrete through the delivery pipeline. This system ensures a smooth and consistent flow of concrete, allowing for precise placement and reducing the risk of blockages.

**Maximum Output and Pressure:** The HBT30 concrete pump has a maximum output capacity of 30 cubic meters per hour (39 cubic yards per hour) and a maximum pumping pressure of 10 MPa (1450 psi). These specifications make it suitable for a wide range of construction applications, including residential, commercial, and light industrial projects.

## Product Features:

1. Agitation by the entire shaft axis design, embolization motor, strictly ensures the coaxial.
2. Double-loop open circuit hydraulic system, ensure fast direction switching speed and high efficiency
3. The distribution valve adopts the advanced S pipe valve system which consists of hard alloy eyeglass plates, cutting rings and rubber springs.
4. It has good sealing performance; the structure is simple and reliable, and convenient replacement of the wearing parts;
5. The pump is assembled through streamlined production with strictly control on the process to make sure its high quality.
