

Stationary Asphalt Mixing Plant Engineer 120TPH

Our Product Introduction

for more products please visit us on sunnyconcretebatchingplant.com

Basic Information

- Place of Origin: Hunan
- Brand Name: Sunny
- Model Number: LB1500
- Minimum Order Quantity: 1 set
- Price: USD250,000-50,0000 PER SET
- Packaging Details: FULL CONTAINER
- Delivery Time: 20-35DAYS
- Payment Terms: L/C, T/T, Western Union, MoneyGram
- Supply Ability: 50 SET PER MONTH

Product Specification

- Warranty: 1 Year
- After-sales Service Provided: Engineers Available To Service Machinery Overseas
- Type: Asphalt Mixing Plant
- Application: High-grade Asphalt Road Paving, Construction Areas, Road Construction Asphalt Plant
- Control System: PLC+colorized Touching Screen
- Highlight: **asphalt plant engineer, stationary asphalt mixing plant, batch mix plants**

Product Description

China Asphalt Plant Manufacturer 120TPH Asphalt Batching Plant Machinery

The asphalt plant adopts modular design, easy installation and maintenance, fast removal and transportation. It is mainly used for the construction of highways, highways, municipal roads, airports and ports.

1. Modular design and integrity steel base, reasonable layout, demolition, transportation and installation faster and easier.
2. Superior drying drum plate design, and independent research and development of advanced combustion heating technology to improve efficiency, reduce energy consumption.
3. Plus high hot aggregate bin design to increase the stock of hot aggregate storage, to increase producing capacity.

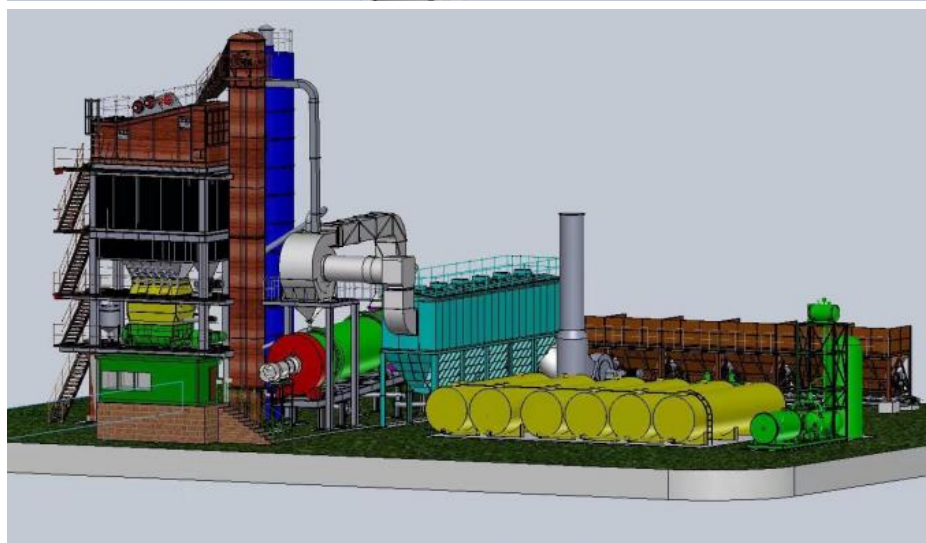

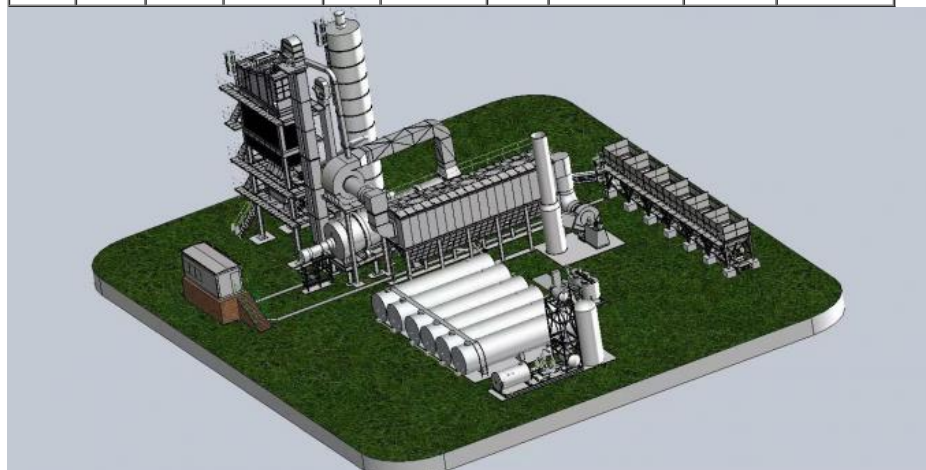

Energy Efficiency and Environmental Considerations: The LB1500 asphalt plant features advanced dust collection systems that effectively capture and filter out dust and particulate matter, ensuring compliance with environmental regulations and promoting a clean working environment. The plant is designed to be energy-efficient, minimizing energy consumption and reducing environmental impact.

User-Friendly Design: The LB1500 model is designed with user convenience in mind. It features user-friendly controls and a well-organized layout, allowing operators to monitor and control the asphalt production process easily. The intuitive interface and clear display enhance operational efficiency and reduce the learning curve for plant operators.

Versatility: The LB1500 asphalt plant is versatile and can handle various asphalt production requirements. It can produce a wide range of asphalt mix designs to meet different project specifications, making it suitable for a variety of construction applications.

Durability and Reliability: The LB1500 model is constructed with high-quality materials and components, ensuring its durability and reliability. It is designed to withstand demanding operating conditions and deliver consistent performance over an extended period.

Model	Rated Output	Mixer Capacity	Dust removal effect	Total power	Fuel consumption	Fire coal	Weighing accuracy	Hopper Capacity	Dryer Size
LB1000	80t/h	1000kg	≤20 mg/Nm³	264kw	5.5-7 kg/t	10kg/t	aggregate; ±5‰	4×8.5m³	φ1.75m×7m
LB1300	100t/h	1300kg		264kw			powder; ±2.5‰	4×8.5m³	φ1.75m×7m
LB1500	120t/h	1500kg		325kw			asphalt; ±2.5‰	4×8.5m³	φ1.75m×7m
LB2000	160t/h	2000kg		483kw				5×12m³	φ1.75m×7m
