- Control System: PLC+colorized Touching Screen
- Highlight: bitumen hot mix plant, bitumen mixing plant, bitumen plant

Product Description

120TPH Stationary Hot Mix Bitumen Plant from China Manufacturer

The LB1500 asphalt plant is a highly efficient and reliable asphalt mixing plant designed for large-scale asphalt production. It is part of the LB series of asphalt plants, known for their advanced technology and superior performance. The LB2000 model specifically offers a range of features and capabilities that make it a popular choice among asphalt producers.

The LB1500 asphalt plant is designed to handle a substantial volume of asphalt production. It has a production capacity of 160 tons per hour, making it suitable for medium to large-scale projects such as highways, airports, and major road construction.

One of the key features of the LB2000 model is its precise and efficient mixing system. It utilizes a twin-shaft paddle mixer, which ensures thorough blending of aggregates, filler, and bitumen. This results in a high-quality asphalt mixture with excellent uniformity and consistency, meeting the required specifications for road surfaces.
