

Heavy Duty Commercial Concrete Pump Placer Pouring

Our Product Introduction

for more products please visit us on sunnyconcretebatchingplant.com

Basic Information

- Place of Origin: Hunan
- Brand Name: Sunny
- Model Number: HBT30
- Minimum Order Quantity: 1 set
- Price: USD5000-7000 PER SET
- Packaging Details: FULL CONTAINER
- Delivery Time: 20-35DAYS
- Payment Terms: L/C, D/P, T/T, Western Union
- Supply Ability: 500 SET PER MONTH

Product Specification

- Application: Concrete Pump, Trailer Pump
- Warranty: 3 Years
- Model: HBT30
- Highlight: concrete placer pump, concrete placing pump, concrete pouring pump

Product Description

High Performance Heavy Duty Commercial Hbt 30 Concrete Pump Singapore

Product Description

HBT series concrete pumps are excellent modernized concrete machinery developed with aid of advanced technology. They are high tech concrete machine which are incorporated with international advanced technology and experiences in designing to replace the traditional way to lift the concrete by labor force. they adopt the diesel engine drive and motor drive S valve pump and gate valve pump with excellent technical performance, high standard configuration and high reliability.

Product Features:

The HBT30 concrete pump offers several advantages in concrete placement:

Compact and Maneuverable: The compact size of the HBT30 makes it suitable for construction sites with limited space or restricted access. Its maneuverability allows for easy navigation through narrow pathways and congested areas.

Versatility: The HBT30 concrete pump can handle various types of concrete mixes, including low slump, high slump, and lightweight concrete. It is suitable for a wide range of applications, such as foundations, slabs, walls, and more.

Precise Placement: The HBT30 allows for precise and controlled concrete placement, even in challenging or hard-to-reach areas. It provides flexibility in construction projects, accommodating different heights and distances.

Reliability and Durability: The HBT30 is designed to withstand the demanding conditions of construction sites. Its sturdy construction and high-quality components ensure long-lasting performance and reliable operation.

User-Friendly Operation: The HBT30 is designed with user-friendly features that make it easy to operate and maintain. Its intuitive control system and accessible components simplify the pumping process and reduce downtime.

The HBT30 concrete pump is a versatile and reliable solution for concrete placement in small to medium-sized construction projects. Its compact design, high performance, and ease of operation make it a valuable asset for contractors and construction companies seeking efficient and cost-effective concrete pumping capabilities.
