- Supply Ability: 50 SET PER MONTH

Product Specification

- Highlight: 28m concrete pump,
used concrete boom pumps,
37m concrete pump

Product Description

SANY 28m 37m 56m 61m Truck Mounted Concrete Boom Pump Cement Truck Long Boom Concrete Pump

Advantages and Applications:

Enhanced Efficiency: The combination of a long-reaching boom and high pumping capacity enables the 56M pump truck to deliver concrete quickly and efficiently. It reduces the need for manual labor and speeds up construction progress, resulting in increased productivity and cost savings.

Precise Placement: With its versatile boom configuration and precise control system, the 56M pump truck allows for accurate and controlled concrete placement. It can reach challenging areas, such as high-rise structures or confined spaces, ensuring optimal concrete distribution and minimizing wastage.

Versatility: The 56M concrete pump truck is suitable for a wide range of construction applications, including residential and commercial buildings, infrastructure projects, and industrial facilities. It can handle various types of concrete mixes, accommodating diverse construction requirements.

Safety and Reliability: SANY is renowned for its commitment to safety and reliability. The 56M concrete pump truck is built with high-quality components, advanced safety features, and rigorous manufacturing standards. It ensures stable and dependable performance, promoting operator safety and project success.
