## Product Description

used sany-SY5271THB-37 pump truck with high quality and cheap price for sale in shanghai

The SANY 37M concrete pump truck is a powerful and versatile machine designed for efficient concrete placement in construction projects. Manufactured by SANY Group, a leading global construction machinery manufacturer, the 37M concrete pump truck combines advanced technology, robust construction, and precise control to meet the demanding requirements of modern construction sites.

**Key Features and Specifications:**

**Boom Length and Reach:** The SANY 37M concrete pump truck is equipped with a boom that has a reach of 37 meters (121 feet). The boom is composed of multiple sections that can be extended and maneuvered to precisely place concrete at various heights and distances, providing wide coverage on the construction site.

**Pumping Capacity:** The 37M concrete pump truck has a maximum pumping capacity of up to 120 cubic meters per hour (157 cubic yards per hour). This high output allows for the efficient delivery of large volumes of concrete, ensuring smooth and continuous placement.

**Boom Configuration:** The boom of the 37M concrete pump truck is typically configured in a 5-section Z-shaped design. This design provides flexibility in navigating obstacles and reaching complex areas on the construction site, making it suitable for a wide range of construction applications.
