Product Description

Cheap Sany pump truck 37m with Isuzu chassis Sany Putzmeister 42m CONCRETE PUMP TRUCK With benz chassis
Slewing Range: The concrete pump truck's boom can rotate 360 degrees, enabling precise positioning of the concrete without having to reposition the entire truck. This feature enhances efficiency and saves time by reducing the need for truck movement.

Control System: The 37M concrete pump truck is equipped with an advanced control system that allows operators to precisely control the boom movements, pumping parameters, and other functions. The intuitive control interface provides real-time monitoring and feedback, ensuring accurate and safe operation.

Stability and Safety: The SANY 37M concrete pump truck is designed with stability and safety in mind. It features robust outriggers that provide excellent stability during operation, even on uneven terrain. Safety devices such as boom anti-vibration technology, hydraulic overload protection, and emergency stop systems are incorporated to enhance operator safety and prevent accidents.

Power Source: The 37M concrete pump truck is typically powered by a diesel engine, offering reliable performance and efficient energy utilization. The engine provides the power required to drive the pumping system, boom movements, and other hydraulic functions.
