Product Description

HZS25 Bucket Type Batching Plant

The **HZS25** is a small-scale **concrete batching plant** widely used in construction projects that require moderate concrete production. It's part of the **HZS series** of concrete mixing plants, known for their modular design, efficiency, and reliability.

>On the basis of combining advantages of various foreign small concrete batch mix plant and advanced technology, Sunny HZS small concrete batch mix plant adopts modular structure design, which maintains convenient installation& removal and safe, comfortable operation, with good mixing effect and high efficiency. Besides, it adopts PLC automatic logical program control and host computer all-time tracking management, with safe and reliable operation and more facilitate maintaining.

What are the main features of Sunny small concrete batch mix plant ?

>Adopting twin-shaft compulsory concrete mixer, Sunny HZS25 small concrete batch mix plant mixes evenly and rapidly, achieving good mixing effect for all kinds of dry, semi-dry and plastic concrete;

Compact-structured planetary gear was adopted in our HZS25 small concrete batch mix plantto ensure smooth, speedy and efficient transmission;

>Concrete batcher can be designed as underground, partially underground or fully-above ground, 3-6 hoppers are pneumatically controlled by computer with fast and accurate instruct, whole job can be done in separate or accumulative models;

>Aggregate belt conveyor is truss-framed for easy assembly, inclination angle is normally less than 20 degrees, however, it can be up to 45°by adopting through(groovy) belt when the ground area is limited for the HZS25 small concrete batch mix plant ;

Applications:

The HZS25 batching plant is widely used in various construction sectors, including residential buildings, small-scale infrastructure projects, precast plants, and rural construction.

With its balance of compactness, efficiency, and affordability, the HZS25 batching plant is an excellent choice for businesses looking to optimize concrete production without compromising quality.
